Rebels Dump Lancers 21-0

Last Saturday night quarterback Jimmy Torrence sparked the Appomattox Rebels to a Group II District IV win over the Amherst Lancers.

Torrence accounted for all three of the Rebels touchdowns. A pass to Richard Smith, which was good for twenty yards, set up the Rebels first TD. Torrence then took the ball over the line for a six pointer. Later in the second half, aided by a key-block thrown by Jimmy Burke, he sprinted fifty - seven yards for his second touchdown. His third of the night, and the Rebels final tally, came in the fourth period with a one yard plunge into the end zone. The lone conversion was good on a pass from quarterback Torrence to Doug Mitchell.

The Amherst Lancers came within four yards of pay dirt, but just could not push by the Rebel line.

Butch Bryant and Wayne Phelps were stand outs on the Appomattox defense. Bryant blocked two Lancer punts and Phelps tackled the Amherst quarterback in the end zone for a safety.

The Rebels who now stand 1-0 in district competition will take on Randolph Henry here this Friday night at 8 p.m.

Make an effort to come out and support your team.

Drought Emergency Livestock Feed Plan Extended Four Months

Four additional months have been added to the livestock feed program in Virginia extending it through April 30, 1964, W. T. Powers, Executive Secretary of the Virginia State USDA Disaster Committee, has announced. The program otherwise would have been terminated December 31

"This extension comes as good news to farmers since it will give them the assurance of having livestock feed available at reduced prices throughout the heavy winter feeding months," Powers said. "Coming at this time it will also be of assistance to farmers in determining what action they will take with respect to carrying livestock numbers through the winter feeding season."

Approval of individual arms in these counties is handled through ASCS county committee who place orders for corn in carlots with the ASCS State office.

As of September 10, the ASCS State office reports that orders have been placed for 613 rail cars of corn amounting to 1,316,300 bushels. These orders are filled from CCCbins in the midwest.

In addition to the feed assistance, 72 of the drought-stricken Virginia counties have been approved effective August 30 for operational loans through the Farmers Home Administration. These loans bear three per cent interest.
